

Mazhar Rehman

Full-Stack Web Developer

■ Lahore, Pakistan | ■ +92 312 8572868 | ✉ mk5092048@gmail.com | ■ linkedin.com/in/mazhar-khan-8b3413278 | ■ github.com/anonymousskh09

PROFESSIONAL SUMMARY

Results-driven Full-Stack Web Developer with a proven track record of evolving from a Front-End specialist into a complete full-stack engineer capable of architecting end-to-end digital solutions. Highly proficient in **React.js** for crafting pixel-perfect, high-performance user interfaces, and equally skilled on the backend with **PHP, Node.js, and MySQL** — delivering robust APIs, complex database architectures, and seamless server deployments. Experienced in managing full-scale server migrations, Shopify e-commerce buildouts, and cutting-edge API automation pipelines using **n8n** and **11Labs**, serving clients across Pakistan, Australia, and the Gulf region to drive measurable business growth.

TECHNICAL SKILLS

Front-End	React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Design
Back-End	PHP, Node.js, RESTful APIs, System Architecture
Databases & Theory	MySQL, DBMS, ER Diagrams, Automata Theory
CMS & Platforms	Custom E-Commerce Solutions, Shopify
DevOps & Servers	Git/GitHub, GoDaddy & Hostinger Server Management, DNS Configuration
Automation & APIs	n8n Workflow Automation, 11Labs API Integration, Web Performance Optimization

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer

Feb 2024 – Present

LancerTech — Lahore, Pakistan

- Architected and shipped the official company website (**lancerstech.com**), optimizing Core Web Vitals and achieving top-tier Lighthouse performance scores.
- Engineered scalable full-stack web applications with **React.js** on the client side and **PHP/Node.js** server-side logic, reducing load times by an estimated 40%.
- Spearheaded integration of advanced **n8n automation workflows** and **11Labs API** pipelines for international clients, including Australian enterprise accounts.
- Collaborated cross-functionally with UI/UX and QA teams to deliver pixel-perfect, responsive interfaces meeting strict design specifications.

Freelance Full-Stack Developer & Digital Marketer

2023 – Present

Independent — Remote (Pakistan / International)

- Delivered end-to-end web solutions ranging from high-traffic media portals to B2B export platforms, serving clients across Pakistan, Saudi Arabia, and Australia.
- Executed a critical **zero-downtime server migration** for modernstreetes.com from Hostinger to GoDaddy, diagnosing and resolving complex database routing and backend logic issues.
- Designed and implemented **SEO architectures** and performance-optimized digital marketing campaigns for e-commerce clients, improving organic search visibility.
- Developed a complete **Shopify store (al-ameeraa.shop)** targeting the Saudi Arabian health-and-beauty market, integrating localized UX and payment flows.

KEY PROJECTS

Modern Streetes

modernstreetes.com

Full-stack e-commerce platform. Led a zero-downtime server migration from Hostinger to GoDaddy, diagnosing critical backend routing conflicts and database misconfiguration to ensure uninterrupted operations.

Al-Ameeraa

al-ameeraa.shop

Engineered a complete Shopify health-and-beauty store for the Saudi Arabian market, delivering localized UX, Arabic-ready layout, and a streamlined checkout experience.

AI Agentic Hub & AurumNode

aiagentichub.io | aurumnode.com

Developed cutting-edge tech landing platforms with emphasis on high-speed delivery, scalable backend architecture, and modern UI/UX optimized for conversion.

47 News HD

47newshd.tv

Deployed a content-heavy media portal optimized for high concurrent user traffic, dynamic daily content updates, and fast asset delivery.

ZM Exports

zmexports.online

Built a professional B2B export platform for international clients with full mobile responsiveness and clean product-catalogue architecture.

EDUCATION

Bachelor of Computer Science

2023 – 2027

Riphah International University — Lahore, Pakistan

Relevant Coursework: Computer Architecture · Database Management Systems · System Architecture · Automata Theory
